Judge's Order Restrains Pickets At Coca Cola

Circuit Judge Don A. Ward has issued an order temporarily restraining former employees of the Coca Cola Bottling Plant in Hazard from trespassing on or blocking people from the company premises on East Main Street.

Employees struck the firm a month ago in an effort to organize themselves into a union local. They have been picketing the plant six days a week ever since.

Judge Ward's order also enjoined the pickets from using "threats, coercion or intimidation" to keep people from going to and from the plant.

Picket spokesmen today said they thought the restraining order was unfair, because they said, they had been picketing peacefully all along.

They said they requested plant visitors to not go in but that they by no means threatened or tried to intimidate anyone.

Low wages for long hours is one of the striking workers' main complaints.

Nine workers are on strike. They say they intend to continue picketing "no matter how long it takes" to form their union.

One of their organizing methods has been to circulate a list of names of local businesses who patronize the non-union Coca Cola plant.

These men were named in Judge Ward's order: Ralph Miller, Marcus Couch, Balis Ritchie, Darrell Oliver, Corbett Brewer, Ed Harvey, James Smith, Ben Newberry, Howard Combs and W. A. Robinson.

Combs-Quicksand Road Given Highest Priority Under Appalachian Bill

A new highway from Combs to Quicksand, which will give Hazard a direct link to the Mountain Parkway, has been designated a "quick-start" project by the Appalachian Regional Commission, meaning that construction could begin within six weeks.

The Appalachian Regional Commission, made up of 10 Appalachian governors and two secretaries, has the power to determine how funds provided by the Appalachian Recovery Act will be spent.

Kentucky was looked upon very sympathetically by the Commission, which alloted our state more than twice as much new road mileage as any of the other 11 states with sections in the geographical region known as Appalachia.

Kentucky's share of the road-building funds from the Appalachian Bill is $21.7 million.

These Kentucky roads were designated by the Commission as quick-start projects:

Combs to Quicksand, 25.7 miles; Whitesburg to Isom, 6.8 miles; Louisa bypass, 2.9 miles; I-64 to Catlettsburg, 1.8 miles; Ky. 5 to Armco entrance at Ashland, .9 miles.

Two of the quick-start roads —from Combs to Quicksand, and Whitesburg to Isom, will virtually link Whitesburg to Lexington via the Mountain Parkway.

The government grants will account for only 70 per cent of the eventual cost of highway construction under the Appalachian Bill in this state. Kentucky must put up the remaining 30 per cent.

This money was set aside and kept waiting when it looked as if an Appalachian Bill might be passed in 1964. Highway Commissioner Henry Ward says it is still ready, as well as plans for the roads.

Governor Breathitt said the state hoped to let contracts on the quick-start roads within a month.

Vicco Receives Grant For Natural Gas Facility

The City of Vicco has received a grant of $3,000 from the Housing and Home Finance Agency to plan a natural gas distribution facility for the community.

The project is expected to cost $210,000 to complete.

Construction will begin next year, according to Congressman Carl D. Perkins in a telegram to Vicco's chairman of the Board of Trustees, Bert McGraner.

The efforts to make natural gas available to Vicco homes and businesses is part of a general attempt to improve all public facilities in the year-old city.

The city is now waiting for the government's go-ahead to plan for installation of a water and sewage system.

Recreation for young people is also being given attention by Vicco's leaders. A recreation hall for teen agers has been established, and a Little League baseball program has been organized for the summer.

Blue Lights Adorn Police Patrol Cars

The state's plan to change all police cars from the customary solid black and black and white to gray is in full swing at the Hazard post

According to Sgt. Murphy there are five of the new type cruisers assigned to the local post. A two year period has been given for a complete changeover in the setup.

The new gray crusier that you've been seeing in the Hazard area with the blue warning light on top of it is an experimental car for State Police.

According to Sgt. Murphy the light is being tested to determine its effect and if everything goes according to plans, all lights on state police autos will be blue.

All wreckers, ambulances and fire trucks will keep the usual red or amber flashing light.

According to Murphy, it will take an act of the state legislature to change the lights from red to blue.

Meeting Called On Retardation

Parents and all other individuals interested in finding out how retarded children in Hazard can be helped are invited to come to the Kentucky Power Company auditorium in Hazard Monday, May 17, at 7:30 p.m.

One of them is at Leatherwood here in Perry County.

"Our city is lagging far behind other progressive communities in providing necessary clinical care, schooling, recreational and training programs for the retarded," he said.

"Retarded children can be helped. We invite all interested persons to attend the meeting and find out what they can do to help."

'Workable Program' Approved For County

Perry County is now qualified to begin applying for special federal assistance in community improvements such as public housing and slum clearance by virtue of approval of its "Workable Program" by the Housing and Home Finance Agency.

The government requires a community seeking such federal aid to set up a long-range program for community improvement before it will provide funds for individual projects.

The Perry County Fiscal Court recently prepared such a long-range program in conjunction with its intention to secure as the first of many projects, a low-rent public housing facility for senior citizens.

County Judge Babe C. Noplis received the certificate approving Perry County's workable program a few days ago.

It was signed by Robert Weaver, administrator of the Housing and Home Finance Agency.

Kindergarteners Enjoy School Picnic

The Community Kindergarten held their annual "end of school picnic" Wednesday, May 12. The children, faculty and several guests went to the Grand Vue Theater playground for what they hoped to be an all morning outing, but the weather refused to cooperate.

About the time the fun really got underway, a shower of rain forced everyone to run for cover. The spirit of the occasion wasn't dampened enough to keep the group from continuing their fun back in the dining room of the First Baptist Church where games were played and sack lunches, potato chips, ice cream and drinks were enjoyed. The drinks were furnished by a local drink company and the ice cream by a local dairy.

Other than the 44 kindergarten children and faculty the following guests were present: Mrs. Billie Miller and daughter, Stella, Mrs. Robert Partin and daughter, Jan, Mrs. James Hay and son Dwayne, Mrs. Bruce Stephens, Mrs. A. B. Johnson, Mrs. Dennis Draughn, Mrs. Howard Chappell, Mrs. Charles Hall, Mrs. Robert Muncy and son Russell Alan, Mrs. Russell Muncy, Mrs. Samuel Burke and daughter Teresa, Mrs. John Chaney, Connie Grigsby, Ricky Rogers and Tommy Wayne Logan.

LET'S LOOK IT OVER

By Gov. Edward T. Breathitt

This is a salute to the great thoroughbred horse industry of Kentucky which reached the highest peak in its long and colorful history with the recent running of the 91st Kentucky Derby.

This is a tribute to the City of Louisville and to all who have had a hand in putting Derby Festival activities there on a plane with those of Mardi Gras at New Orleans and the Rose Bowl at Pasadena.

More than anything, though, this is thanks to an industry which has meant so much through the national attention it draws to Kentucky, and the taxes it pays, the business it generates to the economic well-being of the Commonwealth of Kentucky.

This year's Kentucky Derby, according to reports, broke all records in attendance — which habitually is pegged at 100,000.

Thoroughbred racing is legal in 28 states, including Kentucky, and while tens of thousands of the residents of this state have never risked the pari-mutuel minimum of $2 on the outcome of a horse race, the benefits they derive from proceeds of the industry are great.

Total tax revenue from all Kentucky race tracks received by the State for the fiscal year ending last June 30 amounted to $3,651,702. This consisted of a pari-mutuel tax total of $3,336,359, race track admission taxes of $140,843, and race track license taxes (so much a day) of $174,500.

Besides being one of the most popular spectator sports in Kentucky, as demonstrated by attendance at Churchill Downs and at the preceding meeting at beautiful Keeneland in Fayette County, thoroughbred racing has tremendous impact on the economy of cities, counties and states where it is staged.

In addition to more income from pari-mutuel taxes, which benefits roads, schools, hospitals and other state services, the spectacular growth experienced by racing in the last few years has resulted also in an increase in land values.

Land values, always high in the Bluegrass, have rocketed to $1,000 or more an acre with the increased prosperity of racing. Even in Jefferson County, home of Churchill Downs, land values have risen appreciably in the last few years because of the establishment of more Thoroughbred farms.

Frequent mention has been made of Churchill Downs in this salute because of the recent Derby there, and mention also has been made of Keeneland. I pay the same tribute to these other thoroughbred racing plants and to the thoroughbred breeders and farm owners who annually help turn the eyes of the nation to Kentucky.

Among the participants in the 53rd Annual Conference of the Council of the Southern Mountains, meeting in Chattanooga, Tennessee, recently were: John W. Bischoff, Marilyn Bischoff, Fred Davis, Dwayne Yost, Arthur Russell, Esther Russell, Eugene Howard, Irma Gall and Peggy Kemner.

From the Buckhorn area were: Mrs. Marguerite Wilder, Miss Evelyn Hodgdon, Miss Julia Morey, and Miss Mary Wright.

In the spotlight that shines on Appalachia today the Council of the Southern Mountains is acting as a "friend in court" for all parties to the discussion as to how and how much to aid and/or direct developments in the mountain areas. The Council is as much concerned for the traditions as for the improvements and as alert to the need for better public health as for industrial development. The addresses, group discussions, seminars and private conversations at Chattanooga reflected all of the currents and positions that trouble the American public today, with special focus on the Appalachian scene.

Among the speakers and group leaders were: Leon Keyserling, former chairman of the President's Council of Economic Advisors; Loren S. The Eagles added three in the sixth on three walks on a bases loaded triple by Preston Fortney.

The red hot Birds tied it in the 7th on a walk to Wooten and a double by Stidham.

FINALS

Leslie County vs Letcher Co.

In a tight pitching duel between Mike Caudill, with one night's rest, and well rested Dan Taylor the Eagles used some fancy base running to carry off the winners trophy.

The only two runs scored came home in the 3rd on a single by Leslie's Bruce Vance, a single by Mike Wooten, a walk to Johnson and Vance's theft of home plate.

Caudill allowed only one Letcher County runner to reach third base and that was F. Duke who singled and stole second in the 5th.

Leslie County, coached by Robert Igo, will now move on to Evarts for the Regional Baseball Tourney set for later this month.

Coach Igo gave a big share of the credit to his flame throwing pitcher Mike Caudill after yesterday's win.

Health Officer Advises Including Medicine Cabinet In Spring Cleaning

How is your medicine cabinet? Overflowing with the usual assortment of jars, bottles and tubes? Are they outdated, inadequately labeled?

If so, why not do a thorough cleaning job now during the spring house cleaning season. "Even the best housekeeper can sometimes forget this very important cabinet," says R. F. Johnson, Perry County accident prevention coordinator. "A periodic check of your medicine cabinet is more than good housekeeping,' he added. "it can be life-saving and accident preventing'"

Mr. R. F. Johnson recommends the following procedures for checking our medicine cabinet

Any medicine whose color has changed should be flushed down the toilet, the container cleaned and discarded. This same procedure should be followed for all those prescription drugs whose labels are gone or whole labeling is so vague that the medicine is unidentifiable. "The name, strength of dosage, and for whom the drug is prescribed should be on the label of all prescription containers," he continued, "if not, and you are unsure of what the medicine is, discard it."

Some danger signs of other items in medicine cabinets include peroxide that is flat or that does not bubble vigorously milk of magnesia that has caked, aspirin that has a vinegary odor and crumbles easily, left-over, discolored, spotty cloudy, or sedimented eyewash or eye drops, ointments, and nose drops.

Paintsville and West Liberty Factories To Provide Jobs For 600 Persons

The Lycoming Shoe Co., of Williamsport, Pa., plans to build two $300,000 manufacturing plants at Paintsville and West Liberty which would provide jobs for up to 600 persons in the Eastern Kentucky area.

Plans for the new plants were announced jointly by Gov. Breathitt and Paul G. Williams chairman of the board of Lycoming, which manufactures Children's Shoes.

"These new plants will be an important step in fulfilling Eastern Kentucky's potential for industrial growth," Breathitt said. "The jobs and payrolls they provide will be of great benefit to the economy of Johnson and Morgan counties and to the surrounding Eastern Kentucky region."

Williams said that the company expects the new plants to be completed and in production by late this year. Plans call for each of the plants to have an estimated 50,000 sq. ft. of floor space and for each to employ up to 300 persons.

The new plants would be branch plants of Lycoming Shoe Company's manufacturing operations in Pennsylvania. Lycoming's parent firm is The Williams Manufacturing Company at Portsmouth, Ohio.

COUNTY AGENT'S NOTES

4-H Leadership Conference Set To Be Held May 21 - June 4th At UK

Paul Keen — Extension Agent

The Annual 4-H Leadership Conference at University of Kentucky is set to be held May 31 , June 4th. The Leadership Conference will emphasize leadership and citizenship themes with top 4-H members from each county attending. Perry County 4-H boys who plan to attend are Larry Hurt, Gary Craft, Don Campbell, Rodney Keen and Billy Wocton. Four girls from Perry County will also attend.

Tentative program plans include: A mock session of the "Kentucky General Assembly," with 4-H boys and girls playing roles of assembly members and studying current issues and how the assembly operates, "Career Exploration" tours, with 4-H'ers selecting tours relating to career interests; state dress revue; election of state officers; and a special closing banquet.

The 4-H'ers will reside in University of Kentucky dormatories during the week.

Care Recommended in Placing Fertilizer for Corn Crops:

Most Kentucky soils will need more fertilizer for the corn crop than can be applied safely in the row. "Each year our attention is called to corn fields having a poor stand, resulting from improper placement of fertilizer."

Listed below are important factors to consider:

1) Corn crop needs for row fertilizer are determined by the soil nutrient level. Soils with a lo wlevel of available nutrients will respond to row applications; but soils with high level will NOT need starter fertilizers.

2) Not more than 40 pounds total nitrogen, plus potash, should be row-applied. If a 10-10-10 fertilizer is used, 200 pounds per acre would be the maximum that should be applied at the row; with a 5-20-20 analysis, row application should not exceed 160 pounds an acre.

3) It usually is safe to apply as much as 100 pounds of nitrogen, plus potash, at the row when the material is put two inches to the side and two inches below the seed. Additional fertilizer for the field should be broadcast and disked in prior to planting.

4) Heavy moisture after planting has an influence on the crop, by movement of the soluable salts in the fertilizer band. Heavy rains after planting reduce the danger of poor stands; dry periods increase the danger of a poor stand.

5) Keep the fertilizer application to 150 to 200 pounds an acre (depending on the analysis) at the row if the split-boot type applicator is used. Broadcast any additional fertilizer needed.

Broadleaf Weeds in Pastures Can Be Got by Using 2,4-D:

Broadcast weeds in pastures will be a problem from now on. But the old standby materials—2,4-D and 2,4,5-T, or a combination of the two—will get rid of most of them. Most common broadleafs are thistle, dock, dandelion, plantain, etc.

Use one or two quarts an acre of the four-pound emulsifiable concentrate strength in 20 to 30 gallons of water. If the two-pound strength is used, it will require two to four quarts an acre of the material in 20 to 30 gallons of water. Good coverage is a must. The boom type sprayer is the recommended equipment.

Federal regulations require that livestock be kept out of the treated areas for at least seven days after application.

Read labels carefully for exact mixing and application directions. Use the amine formulation, or the low-volatile preparation, to avoid drift onto nearby crops, etc.

Eastern Tent-Caterpillar Starting Invasions Now:

Large silken webs in the crotches of wild cherry, apple and crabapple trees mean the eastern tent-caterpillar is invading now.

These pests feed on leaves of host trees, says Dr. R. L. Miller, U. K. Ag Extension Service entomologist, and return to live in the silky webs. Soon they will leave the trees and change into a small moth. They do not bite or have any stinging hairs, says Dr. Miller, but can damage trees severly.

Treat foliage of trees with 50 percent strength wettable powder DDT. Use two tablespoonfuls in a gallon of water. Also useful is a spray made of the 25 percent strength emulsifiable concentrate of DDT, used at two tablespoonfuls per gallon

Webs also may be burned out, which requires safe handling, or cut out of trees and then burned. Little can be done to control the caterpillars once they leave the tree. By June all caterpillars will have disappeared until next year.

Writer Explains Dedicated Teacher

By Mrs. Hale Bowling

In behalf of the Chavies School I wish to express my appreciation for the interest that was shown and for the success of our pie and box supper.

Its success can be accredited to many people. I wish to give some credit to the teachers of Perry County. I say Perry County because we had several schools in the County represented at the supper. Some of the schools represented were: Napfor, Davidson, Clearfork, and Robinson.

There may have been some other schools represented also.

Before a teacher is willing to go from her own school to another and help out in that school's activities, she must first be a dedicated teacher. By a dedicated teacher I mean one who is not only interested in her school but who is willing to support the program and projects of any or all schools of the county.

I think that another characteristic of a dedicated teacher is one who is able to gain the confidence and respect of most of her children. If the children are fond of their teacher, the teacher can depend upon their cooperation in the classroom as well as the extra programs of the school.

If these children are inspired by the teacher then the parents are going to be inspired by the children's interest. Though this chain of teacher inspiring pupil and pupil inspiring parents other people become more interested in what is going on in the neighboring schools.

Another characteristic of a dedicated teacher is one's willingness not only to put in her regular time at school each day but one who is willing to sacrifice some of her "home time" for the benefit of carrying out the school's projects. We have county teachers who deserve a lot of credit for the progress some schools are making in their efforts toward obtaining school libaries.

The spirit of giving library facilities to the school is gaining momentum. Maybe we should be thankful for the inspiration from the pioneer leadership of the Wooton Elementary School, Robinson Elementary, and the R. W. Combs School.

These schools are setting examples for the others to follow and I believe that others will follow. That is one common goal that all consolidated schools will strive for in the next few years.

The money that was raised in the Chavies Pie and Box Supper is being directed for the library facilities for the school.

We wish to express our appreciation to the candidates of the Perry County offices. From what I see and hear these candidates are supporting and cooperating with the Perry County Schools in their drive to raise funds for school libraries.

The Chavies School welcomes and greatly appreciates any assistance or contributions that may be made toward a library. We have about 1,100 books on hand besides five complete sets of Encyclopedia and fifty dictionaries. Our aim is a complete library and a qualified librarian

Traffic Accidents On The Increase In Kentucky

Traffic accidents and fatalities are on the increase in the Commonwealth of Kentucky. Last year, 911 persons died as a result of traffic accidents on the highways in Kentucky. Through May 5; 227 Kentuckians died as a result of someone's carelessness while behind the wheel of a motor vehicle.

Governor Edward T. Breathitt, in an effort to bring this situation to the attention of the driving public in the state, has proclaimed the weekend of May 22-23 as Religious Traffic Safety Weekend. During this time, safety officials throughout the state hope that Kentuckians will consider their moral responsibility in the preservation of life on the roads.

Ministers and religious leaders throughout the Commonwealth are urged to include this aspect of moral responsibility in their messages to their congregations during the weekend. The Governor's Coordinating Committee for Traffic Safety, sponsors of the program, have prepared material for use by religious leaders in preparing their messages.

This material will be available by contacting Religious Traffic Safety Weekend, c-o Governor's Coordinating Committee, Room 220, State Office Building, Frankfort, Ky.

Frog Gigging Opens May 15, Through Oct. 31 In State

Kentucky's frog gigging season will open on May 15 and continue through October 31 with the bag and possession limit unchanged from last year, Minor Clark, commissioner of the Department of Fish and Wildlife Resources, announced today.

Hunting may begin at one minute after midnight on opening day, but the bag and possession limit will apply on a noon to noon basis. The bag limit for this 24 hour period is 15 while the possession limit is 30 after two or more days of hunting, the commissioner points out.

Frogs may be taken with a gig, by hand or rifle or bow and arrow and either a hunting or fishing license is required. If taken by rifle or bow and arrow a hunting license is required, while a fishing license is sufficient for any other method of taking.

The gigging season for rough fish in restricted streams in Kentucky will come to a close at midnight, May 10, Minor Clark, commissioner of the Department of Fish and Wildlife Resources, reported today. The season opened on March 1.

Perkins Urges Speed On Carr Fork Reservoir

A strong appeal was made today by Congressman Carl D. Perkins (D. Ky.), for funds to hasten the construction of flood control and water resource projects for Eastern Kentucky. Perkins, in appearing before the House Public Works Appropriations Subcommittee, asked approval of a total of $17.65 million for the construction of Grayson Reservoir, and Carrs Fork Reservoir.

The 7th Kentucky District of which Rep. Carl D. Perkins is the only Congressional District in which four major reservoir projects are now underway. In addition, $3,683,000 was requested by Perkins to continue construction of the North Fork of Pound and the John Flannagan Reservoirs in the upper reaches of the Big Sandy, and $105,000 for advanced engineering on Red River basin where $25,500 was also requested to enable the Corps of Engineers to develop additional flood protection measures for the Upper Kentucky River basin.

Perkins emphasized that the Federal Government was more than justified in expanding flood control construction activities in Eastern Kentucky because of the constant threat of flood. "Tremendous assistance can be given to efforts to redevelop the Appalachian area if adequate flood control is provided. The protection of potential business and industrial sites from flood threat will materially assist in attracting investment capital in Eastern Kentucky. This means many more jobs for our unemployed", declared Perkins.

In addition to financing the construction of already authorized flood control projects, Perkins said there was a great need for Congress to authorize the Big Sandy River Reservoirs approved recently by the U. S. Army Board of Engineers for Rivers and Harbors.

Perkins expressed the hope that the early authorization of these projects would enable advanced engineering funds to be provided in a supplemental appropriation bill.

In connection with the Upper Kentucky River, Perkins said present flood control authorizations developed by the U. S. Army Engineers were inadequate to eliminate flood control threats and that new reservoirs should be authorized in the upper reaches and constructed at the earliest possible date.

"Intensified efforts to develop new reservoir projects have now been made possible by Section 206 of the Appalachian Regional Development Act of 1965 and the full $5 million authorized for this purpose should be appropriated", said Perkins. "For example", said Perkins, "Flood control reservoirs and projects are urgently needed in the Pond Creek and Tug Fork areas of the Big Sandy basin, and additional Kentucky River Reservoirs such as Booneville and Walkers Creek must be started".

The section of the Appalachian Act referred to by Perkins authorizes the Secretary of the Army to prepare a comprehensive plan for the development and efficient use of water and related resources of Eastern Kentucky's Appalachia and in so doing, to give special attention to the need for new job-creating enterprises within the region. This new approach will overcome obstacles which have denied Eastern Kentucky a maximum water use and flood control development program.

Perkins also called for the appropriation of funds to enable the U. S. Army Corps of Engineers to extend its dredging and stream clearance program in the Eastern Kentucky area. "Much effective work has been accomplished in eliminating the flood threat on smaller streams that have been clogged with silt and debris, but much more needs to be done. Funds must be provided for this purpose", said Perkins.

Following a series of meetings which Perkins had with the U. S. Army Corps of Engineers and the Bureau of the Budget last fall, the President has recommended in his budget $3.0 million to continue construction of the Cave Run Reservoir, $2.2 million for the continuation of construction on the Carrs Fork Reservoir, $5.5 million for the continuation of construction on the Fishtrap Reservoir, and $6.95 million for the continuation of the construction on Grayson Reservoir.

Perkins said that the Corps of Engineers had indicated these amounts would enable the Corps to adhere to timely construction schedules for these important Eastern Kentucky flood control projects.

The hearings conducted by the House Appropriations Public Works Committee are for the purpose of preparing appropriations measures to submit to the Full Membership of the U. S. House of Representatives for financing public works projects for the fiscal year beginning this coming June 30, 1965.

Success hasn't gone to its price

After all, you don't get the No. 1 place (or stay there year after year after year) unless you give people a lot for their money. That, Chevrolet does. Look what's new for 1965. Everything.

Like the handsomest new styling you've ever turned around for another glance at. Like Chevrolet's Jet-smooth ride, even better now with Wide-Stance to steady things as you go. Like however much economy or excitement you'd want, our miserly 140-hp Six to our ferocious Turbo-Jet V8, 325 hp on order.

Besides price, one other thing hasn't changed: Chevrolet's traditional resale value . . . still so good you won't believe it until you get it. So get it (along with all that's new) at your Chevrolet dealer's.

Liberally mix several old tin cans full of fun, with a mop of hair that *always* seems to need to be cut. Sprinkle in streaks of orneriness, pride, courage, envy, and maybe even a little fear.

And there: you've made a boy.

Well, almost.

Boys, wonderfully, have a sweet sense of the bigness and beauty and mystery of things. And it's this sense of bigness, beauty and mystery we hope they'll never lose.

Religion is an awfully big word to a little boy. But the *spirit* of it isn't. And it's the spirit of religion that can bring peace, comfort, security and goodness to a boy—his whole life through.

Hit-the-bat, hide'n'seek—they're as vital to a boy as peanut-butter sandwiches. So is the help of true religious faith. Your children should worship this week in your church or synagogue. And the best way to see to it is to be there with them yourself.

FOR
COUNTY JUDGE
Democrat Primary, May 25, 1965

TO THE VOTERS OF PERRY COUNTY:

I would like to introduce myself as one of your candidates for the office of Perry County Judge on the Democratic Ticket subject to the Primary Election May 25.

I am 36 years old, married and have one daughter, 10, and one son, 8. My wife is Lela June Johnson and we reside on Combs Road.

I am qualified by experience, education and traveling throughout our county. I own my own business, The Eugene Johnson Candy Company, which is very successful.

During recent months, Leslie County has received a $26,600 federal grant for work in their county, and Letcher County was given a similar grant. If elected, I will work toward such a grant for Perry County.

I feel that roads are one of the biggest problems here in Perry County. If elected, I will work for better roads and for any other project which will help the people in our county.

I am qualified, capable and sober and I sincerely ask for your support in behalf of my candidacy.

Republican Candidate For

COUNTY COURT CLERK

I do not want a deed for this office; I desire only to be your custodian and humble servant.
Your vote and influence will be greatly appreciated

FAMILY BACKGROUND

1. This is my first race for political office in Perry County.
2. I was born at Krypton, Ky., and educated in Perry County, having gone to school at Big Creek and Buckhorn.
3. Cy Noble was my father who at one time ran for this very important office.
4. May Napier of Krypton, Ky., was my mother, daughter of "Lucinda Begley & Red Bob Napier."
5. Roy Edward Combs of Busy, Ky., is my husband. He is the grandson of "Rod McIntosh."
6. I am 36 years of age and have a daughter going to M. C. Napier High School, and help rear my husband's two children. I understand and appreciate the problems of our young people and the many difficult tasks they face in life.
7. I have 18 years experience at office work, having performed the tasks of bookkeeping, filing and typing.
8. Elbert Strong, was my uncle and served many of you as your County Attorney. C. A. Noble, Sr., also served the people of this County for many years, and his sons continue in the legal profession. One of which also served as your County Attorney.
9. My father worked many years for Sam Campbell in his magistrate's office, and I am sure you remember Dad or Cy when he worked for Sam Campbell.

If elected to this very important office my platform is simple.

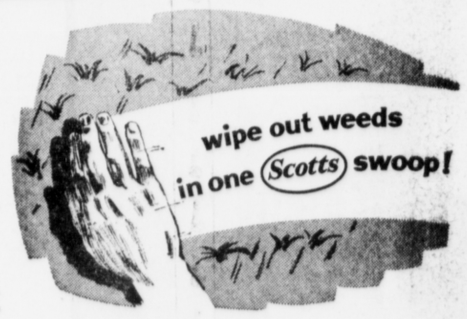

1. Everyone regardless of politics is welcome to visit and make the Clerk's office a part of his government and he may change his registration at legal times without any advice or prompting since this is his privilege.
2. To the Attorneys or Lawyers of this area, as well as the people I promise to keep their deed books and mortgage books permanently indexed monthly to make their abstracting safe and easier.
3. I promise to get new index books for the leins books and re-index the books so that if anyone is running the name of Combs or any name they will be able to look under the C page or pages without jumping all over the book to find and abstract their title or research and thereby do away with unnecessary pitfalls.
4. Your records will be respected and protected during my tenure of office.
5. I do not desire a lifetime deed to this office and will only run one term, and will step aside and give some one else an opportunity to serve you people, since I merely want to be your custodian and humble servant.
6. I promise to keep your Clerk's Office open all day on each and every Saturday of the year since I realize that this is the only day of the week that many of our people have a chance to come to town to transact their business.
7. I plan to make myself or my chief deputy available at all times to serve the people.
8. I promise to not absent myself from the office for more than two weeks of the year.
9. I promise to personally observe and keep a firm control over all the tabulation sheets of all election in this County.
10. I promise to run an efficient office, and to buy equipment only with the approval of the Fiscal Court.
11. My staff will be experienced in serving the public and persons whom all of you know and respect.

I ask for your help and support in this Republican Primary Election, and I would love to be your Republican choice for the November Election since I feel that I can be a winner in November if nominated. I plan to visit each and every one of you before the primary election and if I should fail to see you it will be because you were gone when I made my visit.

Any consideration you can show me will be appreciated to the bottom of my heart.

JESSIE HORN

For

COUNTY COURT CLERK

TO THE CITIZENS OF PERRY COUNTY:

This is to remind you that my agreement with you to make your County Clerk's Office one of the best comes up for renewal on May 25th.

Most of you have personal knowledge of the importance of this office, that it is the place where your deeds and mortgages, your marriage record, taxes, automobile license, voting record and many other records are kept. You also realize that INEXPERIENCE is no substitute for EXPERIENCE in maintaining these records.

The record on which I run is my own.

Your vote and support of my candidacy will help maintain the high standards we have set for this office.

Sincerely,

Jessie Horn

Everyone answers the phone

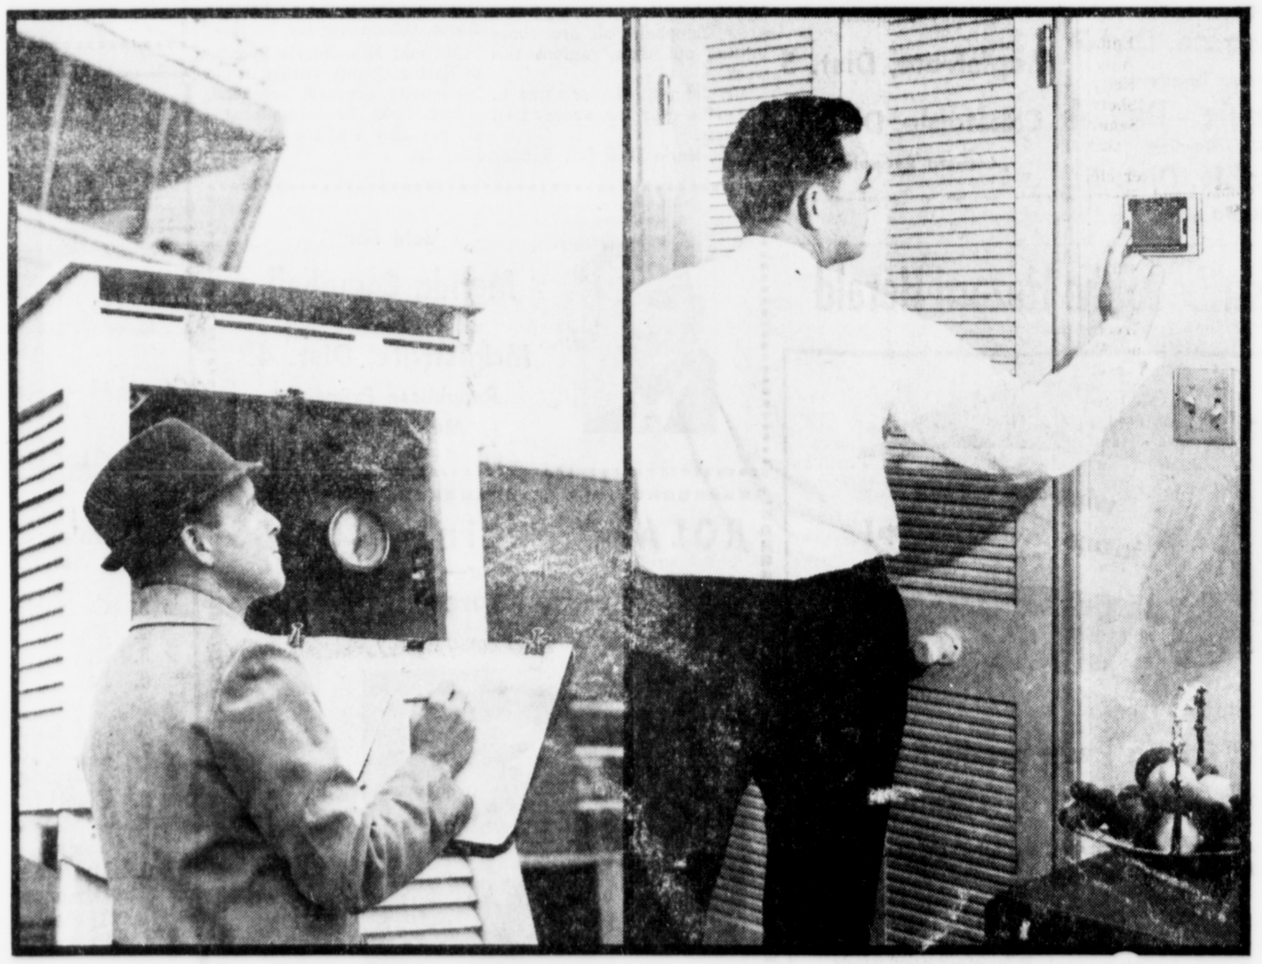

People sometimes "put off" answering letters. Nobody "puts off" answering the phone.

So why take the trouble of writing a letter . . . then waiting for the answer . . . when you can find out everything you want to know with one long distance call.

Now station-to-station calls after 8 P.M. cost no more than $1.00 for three minutes. (For interstate calls, more than 220 airline miles within the continental U.S., Alaska and Hawaii excepted. Taxes not included.) Make that call tonight.

May 25, 1965

for

COUNTY COURT CLERK

of

PERRY COUNTY

My residence is at Dwarf, at which I have lived most of my life. My parents are Sam Wooten and Rebecca Duff Wooten of Dwarf. My wife Aileen is the daughter of Kelly Handshoe and Allie Dobson Handshoe. They also live at Dwarf.

I am forty years old, my wife and I have seven children:

Edna Jo	18
Billy	16
Kelly Glenn	14
Sherry Lynn	11
Sammy and Danny	2
Gary Wayne	9 months

Our three elder children attend school at M. C. Napier High School, and Sherry attends school at Robinson Grade School.

I attended high school at the Robinson High School, at Ary. I served three years in the United States Army in World War II, in which I served all but five months over seas, after returning home from the Army my father and I opened Wooten's Grocery and Feed Store at Dwarf. This business later bame Wooten Wholesale Company. I have been self-employed ever since that time.

I was appointed to the office of County Treasurer in 1958 and re-appointed to this important office in 1962. I still hold this important office.

I spent many hour's working with others to help Perry County citizens get a Federal Grant for the construction of a new courthouse and jail in Perry County.

I was present in Washington, D. C., at the time the Federal Authorities assured Perry County that they would get the Grant.

I, with others, made trips to Frankfort; Atlanta, Georgia; and Washington, D.C., to help Perry County become the third county in this state to receive the Food Stamp Program for the needy of Perry County.

(1) If nominated and then elected County Court Clerk of Perry County I will give my full time to that important office and will serve all the people of Perry County to the best of my ability.
I have had about twenty years bookkeeping experience.

(2) I will hire the best available and experienced personnel I can acquire to work with me.

(3) I will operate the County Clerk's office economically as is possible to save the tax payers as much as possible.

(4) I will see that all records kept in the clerk's office will be indexed properly and in their proper place and kept uniform.

(5) I will work willingly as Clerk of the Fiscal Court and will keep their minutes and order book to date.

(6) I will post all bills that the county owes in a ledger kept for that purpose so the Fiscal Court will know what the county owes at all times.

(7) I will work hard with the officers and citizens of Perry County to make Perry County a better place in which to live.

(8) I will see that each and every person who comes to the clerk's office to register, to vote can register at their own free will, without being influenced.

I like to help people and I like to work with people.

With my experience in bookkeeping and seven years as Treasurer of Perry County I believe this qualifies me for this important office.

So I ask YOU the voter of Perry County to examine my record, ask people who know me and who have worked with me, then you decide if you think I will make the best County Court Clerk, then I ask you to support me.

Your vote and influence will be greatly appreciated.

COUNTY JUDGE

Democrat Primary, May 25, 1965

To The Voters of Perry County:

I am a candidate on the Democratic ticket for the office of County Judge of Perry County, subject to the May Primary.

I was born in 1911 in Perry County and have always lived here. I am a 32nd degree Mason and also a Shriner. From 1942 through 1960 I was employed by Blue Diamond Coal Company; Blue Diamond, Kentucky. Since that time I have been engaged in the Real Estate business. I served as Justice of the Peace in Magisterial District No. 6 for twelve consecutive years, and during that time, with the help of my friends, I got more than $200,000.00 in Rural and State roads built in my district. If you elect me as your County Judge I promise to work unceasingly to improve the entire road system of Perry County.

My wife is the former Miss Sinda Hamilton, and she has been Postmaster at Dice, Kentucky for the past twenty-three years. We have two children, seven grandchildren, and have reared two foster children. We are members of the Lost-creek Community Church, where my wife serves as Treasurer and I am a Deacon.

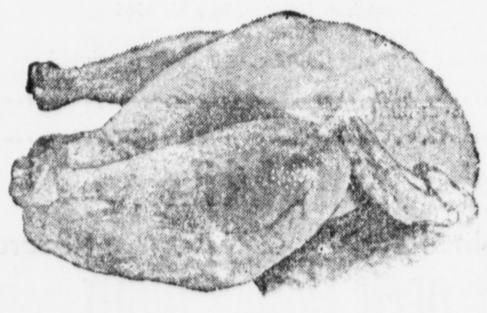

I want you, the voters of Perry County, to know that I am not connected with nor obligated to any of the other candidates in the other County races. Let us have faith that right makes might, and in that faith let us to the end dare to do our duty as we understand it. I want to be your County Judge, and I humbly solicit your support. If nominated and elected I sincerely promise you four years of faithful and devoted service. With your support we will win and progress.
